[Art Bibliographies Modern](#) contains almost 300,000 abstracts concerning contemporary and modern art from journal articles, books, exhibition catalogs, essays and reviews. The abstracts cover subjects since the late 19th century ranging from performance art and installation art to illustration and body art. The entire history of photography is covered.

[Art Full-Text](#) has international coverage of periodicals from 1984 to the current dealing with art history, decorative arts, industrial design, photography, sculpture, fashion design, graphic arts, advertising and many more art-related subjects. The database indexes international professional journals and museum bulletins. Reproductions of works are also indexed.

[Art Index Retrospective](#) covers art history, decorative arts, graphic arts, industrial design, interior design, photography, textiles and many more art related subjects. The database indexes international professional journals, yearbooks and museum bulletins. Reproductions of works of art published in indexed periodicals are also cited within the database.

Compilation of [Art Index](#) volumes 1 – 32 published from 1929 – 1984.

[Corbis](#) contains over 485,000 images in the historical and design collections that can be used in classroom projects, portfolios, lessons plans and presentations. Please come to the Reference Desk for account information.

[Design and Applied Arts Index](#) provides coverage from over 450 design and craft journals published since 1973 and contains biographical information on over 50,000 designers, craftspeople, studios and firms. This database covers areas of study such as: typography, environmental design, ceramics, web site design, embroidery, textile design and furniture design.

[Grove Dictionary of Art](#) contains more than 45,000 articles covering most aspects of art history including: painting, sculpture, graphic arts, architecture, decorative arts and photography and over 23,000 biographies of western and non-western artists, patrons and writers. There are over 100,000 images available through the Bridgeman Art Library's collection.

[InfoTrac](#) is a collection of databases in which many of the entries are available in full-text. The database in this collection that is most useful for industrial design is **General BusinessFile ASAP** which indexes both general and scholarly sources that cover all business and management topics and includes company profiles.

Lexis Nexis covers over 5,900 full-text publications including newspapers (New York Times), business, legal and news journals. Includes company profiles, company financial reports and industry news.

[Oxford Reference Collection Online](#) contains over 130 subject dictionaries and the [Oxford Encyclopedia](#) to answer quick reference questions and to verify facts and dates.
